

# STAY AHEAD OF OLD MAN WINTER

## PROTECT CRITICAL WATER INFRASTRUCTURE NOW!

Hubbell's Hot Box line of enclosures offer a broad range of protection against freezing temperatures

All Hot Box standard enclosures are ASSE 1060 Certified

- Available in Class I, Class II, Class III
- Customizable sizes designed to meet your specific needs
- Offered in aluminum, fiberglass, and HDPE
- Optional accessories include:
  - Heaters are thermostatically controlled to maintain interior temperature of 40°F
  - Alarms & strobe lights advise when attention is needed
  - Fans to help maintain standard temperatures
  - Lights to improve visibility within the enclosure
